

# French Advance On 21-2 Mile Front Trains Collide At Nashville; Loss Of Life Heavy

## FIFTY PERSONS DEAD OVER HUNDRED HURT N. C. & ST. L. FLYERS IN HEAD-ON WRECK

TRAINS NO. 4 AND NO. 1 MEET  
AT BELLE MEADE STATION  
AND BOTH ARE TELESOPED.

### All Hospitals Filled

ONE COACH, OCCUPIED LARGELY  
BY NEGROES, IS RIPPED END-  
TO-END.

(International News Service)  
Nashville, July 9.—The worst  
disaster in the history of the  
N. C. & St. L. railway occurred  
this morning at 7:15 o'clock  
when passenger train No. 1  
from Memphis and passenger  
train No. 4 bound for Memphis  
collided at Belle Meade Park on  
"Dutchman's Grade," demolishing  
six coaches and destroying  
both engines.

Authentic reports from the  
hospitals have not been com-  
piled, but indications are that  
the casualty list will be large.  
Hurried estimates placed the  
dead at around 50, and the in-  
jured as high as 75. However,  
when all reports are received  
from the hospitals here where  
the injured and dying were car-  
ried these figures may be in-  
creased. The majority of the  
casualties were among negroes.

The exact cause of the col-  
lision has not yet been estab-  
lished. The Pullman cars es-  
caped serious damage.

The names of 15 dead have  
been compiled. They are from  
Arkansas and West Tennessee.

(International News Service)  
Nashville Tenn. July 9.—Although  
no official list of the dead and injured  
had been compiled at noon, it was es-  
timated on good authority that there  
were at least 50 dead victims and the  
Nashville hospitals are packed with  
the injured.

A large number of the dead are  
negroes, who were in the first coach  
of the inbound train, being brought to  
Nashville to work in the powder plant.  
The majority of these were from Ar-  
kansas. Reports say that an express  
car ploughed its way through almost  
the entire length of this coach, leaving  
the floor covered with dead and man-  
gled forms.

No official cause of the wreck has  
been assigned, but a report is being  
circulated that the outbound train failed  
to obey orders to take a siding and  
await the incoming train.

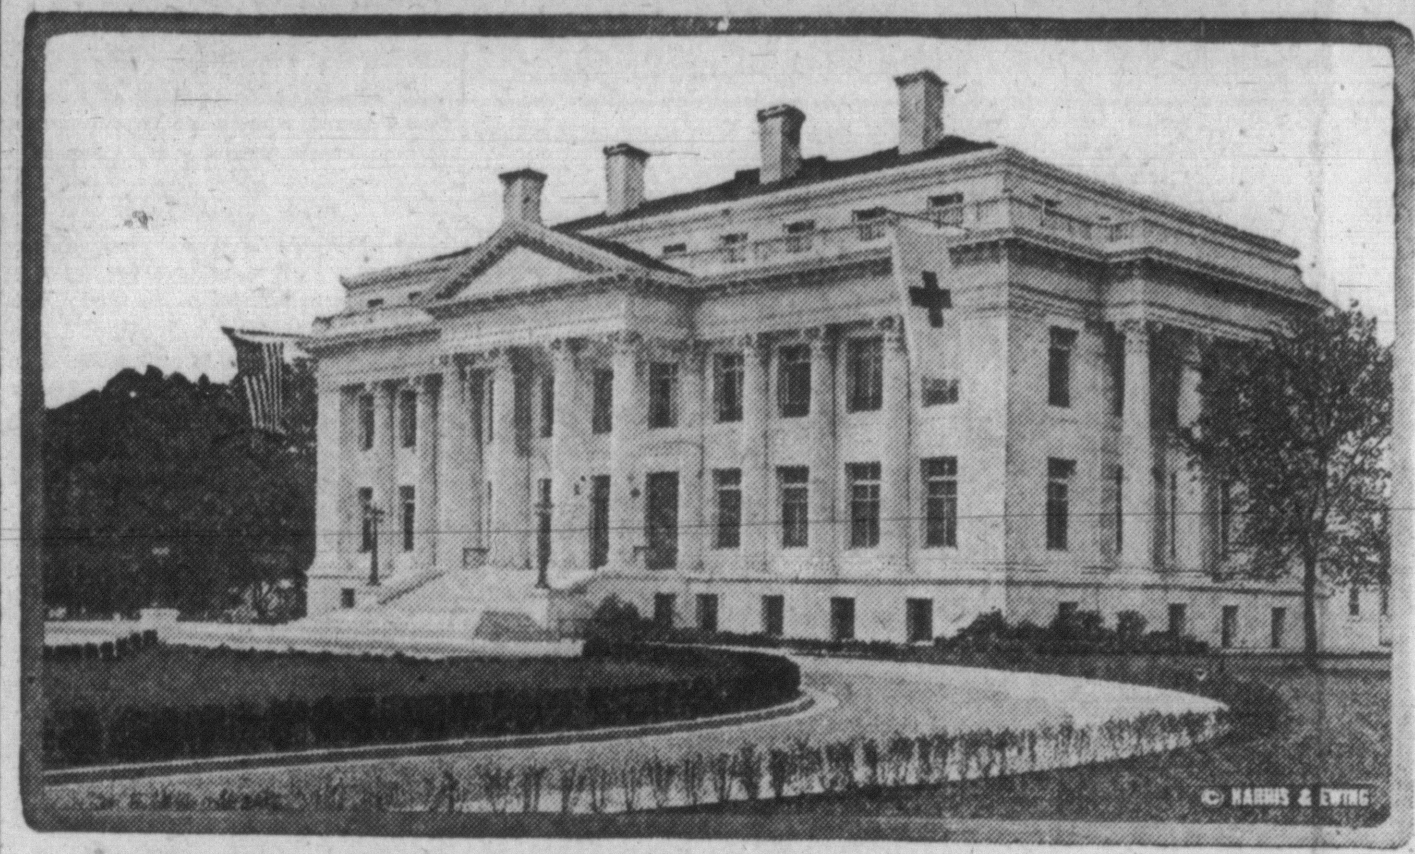

Train No. 1 left here on time but  
No. 4 was slightly delayed. The en-  
gines and many others of the train  
crew are said to be dead and injured.  
According to unofficial information  
the majority of those killed and in-  
jured were from Memphis.

It was later officially given out by  
the railroad authorities that both en-  
gines and firemen were killed. The  
engines were Dave Kennedy and  
William Lloyd, both of Nashville.  
There was no Atlanta or Chattanooga  
pullmans on No. 4. These cars bound  
for Chicago and points north are dis-  
connected at Nashville. The official  
railroad report so far says 40 were  
killed.

(International News Service)

Nashville, July 9.—Scores were killed  
and perhaps more than 100 wounded  
when trains No. 4 and No. 1, on the  
N. C. & St. L. Railway, crashed head-  
on early this morning at Belle Meade,  
a suburb of Nashville. The combi-  
nation coach of No. 4 filled with white  
and negroes was ripped from end to  
end and several other coaches were  
telescoped. The wreckage soon took  
fire and the work of rescuing passen-  
gers proceeded under difficulties. Am-  
bulances bringing doctors and nurses  
from all parts of Nashville were rushed  
to the scene.

AMERICAN RED CROSS BUILDING IN WASHINGTON

The completed building of the American Red Cross in Washington is one of the handsomest structures in the capital. Though it was of ample size for prewar needs, it has been necessary to provide several times its floor space in additional temporary quarters back of the permanent building.

## HUNGARIANS GOT HOT END OF DRIVE

### WERE ALLOWED TO BEAR BRUNT OF FIGHTING BY AUS- TRIANS.

(International News Service)  
London, July 9.—Of the hundreds of  
thousands of men lost by the Aus-  
trians in the offensive against Italy,  
the greater part of them were Hun-  
garians, according to information  
from Budapest.

Hungarian deputies have delivered a  
protest to the Hungarian parliament  
against the excessive losses on the  
Piave and accusing the Austrian gen-  
eral staff of sacrificing five Hun-  
garian regiments.

## ARKANSAS SLACKERS AND OFFICERS IN A PITCHED BATTLE

(International News Service)  
Heber Springs, Ark., July 9.—A ma-  
chine gun battle is expected in this  
vicinity today if posses and Arkansas  
national guardsmen who are hunting  
a band of draft evaders 30 strong  
locate the men, who are known to be in  
this neighborhood.

In a battle yesterday at the home of  
one of the men, one official and two of  
the band were killed. The guardsmen,  
who were summoned after the deserter  
have established themselves with two  
machine guns at the Atkinson home-  
stead, where the first fight occurred.

## Fighting Qualities of American Troops Startle the Boche

(International News Service)

With the American Army in France,  
July 9.—An indication of what the  
German army thinks of the fighting  
ability of the Americans is given by a  
copy of an intelligence report of the  
(deleted) German army, which has  
just been obtained. The report, de-  
scribing the fighting on the Marne, re-  
fers to the (deleted)—American divi-  
sion as a very good one, "almost an  
attacking division," and adds that the  
nerves of the Americans have not yet  
been shaken.

The German fire, the report says,  
had been unable to affect the morale of  
the Americans, who only lacked the  
necessary instructions to make them  
serious adversaries.

Prisoners taken by the Germans, the  
report states, were physically well  
built and were aged from 18 to 28  
years. Their characteristic utterance  
is quoted as "We kill or are killed."

The report adds that it is impossible  
to obtain military information from  
the Americans, and that they rarely  
will indicate the positions they occu-  
pied in the line.

In general the report declares the  
Americans making a good impression.  
For the moment they continue to con-  
sider their part in the war as that of  
"big brothers," who had come to Eu-  
rope to assist their "little brothers,"  
and the latter's mothers and sisters,  
but also declare that they had come  
overseas to fight for their country.

Most of the Americans, the docu-  
ment, adds, are of foreign extraction,  
"demi-Americans" it calls them, but  
it admits that their spirit and fighting  
qualities are remarkable.

given a farewell send-off by a crowd  
of good proportions which had gather-  
ed at the station. Fifty-two men had  
been notified to appear, but only forty-

husbands have been reclassified and  
placed in Classes 1 and 2.

## GERMAN GAINS MADE DURING PARIS DRIVE BEING WRESTED AWAY

### IMPORTANT GROUND RETAKEN WHEN FRENCH GO FORWARD OVER A WIDE FRONT

## RUSSIAN SITUATION IS ACUTE

### Murder of German Ambassador to Moscow is Officially Confirmed. Vladivostok Quiet.

The French are steadily wiping out the gains which the Ger-  
mans made in their latest offensive between Montdidier and the  
Aisne river, which began June 5 but which collapsed shortly after-  
wards. Another slice of German-held territory northwest of  
Compiègne was taken by the French early today, when they at-  
tacked over a front of two and a half miles, advancing to a depth  
of 1,800 yards, capturing two fortified farms and 450 prisoners.

This is only one of a series of successful operations the  
French have been carrying out during the past fortnight. Not  
only are the German battle lines being pushed back, but French  
positions at Compiègne are being steadily strengthened.

On the British front the chief development was the continu-  
ation of the heavy German cannonading in the Somme sector.

There have been no further decisive developments on the  
Italian fronts, but attention is being directed to the Balkans where  
the allies have organized some strong offensive operations.

The extent which the allied campaign in Macedonia will as-  
sume is still a matter of doubt. The Austrian war office admits  
the withdrawal of some advanced positions.

removal of the present ruler.

ardy front is noted.

disorders since June 29.

(International News Service)

London, July 9.—One of a group of new type American de-  
stroyers has arrived in the submarine zone after a remarkable  
maiden voyage. It is the starter of an endless procession from  
American shipbuilding yards to European waters.

Litovsk treaty.

## RUSSIAN SITUATION IS CAUSING CAPITAL CONCERN

Washington, July 9.—Exchanges  
between Washington and the various  
entente capitals on the Russian situa-  
tion were continued today. Every ef-  
fort is being made to work out a gen-  
eral plan which will save Russia to  
the allies and will prevent Germany,  
by spreading suspicion of their mo-  
tives, from swinging the Russian peo-  
ple to the side of the central powers.

## PUBLISHER OF N. Y. EVENING MAIL IS HELD UNDER \$35,000 BOND

(International News Service)  
New York, July 9.—Dr. Edward L.  
Rumley, publisher of the N. Y. Even-  
ing Mail, was held under \$35,000 bail  
today when arraigned before U. S.

alleged, that he bought the Mail for  
the German imperial government.

## RAILROAD Y. M. C. A. MEMBERSHIP DRIVE BEGINS TOMORROW; THOMPSON TO HELP

### FOUR DAY CAMPAIGN TO BE WAGED TO RECRUIT RANKS DEPLETED BY WAR.

## Henley Names Teams

### PRESIDENT MORRILL OF BOOST- ERS CLUB TO LEAD DRIVE IN DECATUR.

The local Y. M. C. A. membership  
campaign will open tomorrow for a  
four day's drive, closing Saturday  
night. The biggest attraction so far  
announced is the appearance of Dr.  
H. R. Thompson, secretary of the  
Sheffield Y. M. C. A., who will address  
a mass meeting on the Association  
lawn, Friday night. Dr. Thompson  
was drafted from this association  
about two months ago for the purpose  
of organizing the large new Y. M. C.  
A. at Sheffield. For more than a  
year previous he was general secretary  
of the local association and was as-  
sisted by Sylvester Blair, who has  
been promoted to general secretary.  
Many of the plans which Dr. Thomp-  
son had made for the present member-  
ship drive will be used this week. In  
addition Secretary Henley of the Al-  
bany Board of Commerce will orga-  
nize teams, which will thoroughly canvass  
the business section of Albany.

Decatur has always been linked with  
Albany in the support of the Y. M. C.  
A., some of the most valuable directors  
of the association having been from  
Decatur. President H. L. Morrill of  
the Decatur Boosters will be invited  
to lead the campaign in his town.

It is the unanimous sentiment  
among the brotherhood men of the  
different industrial crafts that the  
work of the local association shall be  
maintained. No one who has been a  
member in the past is expected to fail  
to renew this week. The fee, which is  
only five dollars per year, is regarded  
as extremely low, considering the high  
prices paid for everything else during  
war times.

Many who cannot be active in the  
work and partake of the privileges of  
the association owing to family ties,  
will be looked to for the usual support.  
Many benevolent men and women  
have in the past donated member-  
ships to deserving young men. This  
privilege is still open and such dona-  
tions of memberships will be gladly  
received. The definite number desired  
as members at this time has not yet  
been made public, as a tabulated list  
must yet be made showing the losses  
from war service and other causes.

## Find New Coating for Concrete Ships

(International News Service)

Washington, July 9.—Discovery of a  
new protective coating which is ex-  
pected to make concrete ships as dur-  
able as steel was announced today by  
the Shipping Board.

"Engineers studying concrete con-  
struction are becoming more and more  
enthusiastic over the future of con-  
crete ships," said H. J. Wig, chief of  
the concrete ship division. "From our  
comprehensive tests at seawater, we  
are assured that such vessels will last  
a minimum of several years without  
any protection. Applications of well-  
known protective coatings make cer-  
tain an extended life of several years  
additional, and, with the further devel-  
opment of protective means which we  
have discovered, I believe the concrete  
ship can be made as permanent as  
steel, if not more so."

## Meeting Tonight at Commerce Board

Secretary Henley has requested all  
merchants and professional men of  
Albany to attend an important meet-  
ing to be held tonight at 8:30 o'clock  
at the rooms of the board of com-  
merce. An important matter will come  
up for consideration.

## MEPE PROGRAMS FULFILLED PROVE NOTHING

While it is gratifying that we have put over a million troops in France and have thus gone beyond the program laid down, we must keep in mind that fulfilling programs per se means little in a war like the present one is developing into.

As the non explosive shells of Lord Kitchener had to be replaced by the modern big explosive and gas shells so must the programs of the past be replaced by bigger and larger programs.

With Finland a possible new enemy, and maybe Sweden, with the plans now on foot to land troops from all Allied countries in Russia; with Ireland still a slacker country; with disunion stirred anew in South Africa with a big increase of slaves constantly coming under German rule who will be finally equipped and forced to bear arms against us, and many another danger seen and unseen—there is no such thing as any wide awake American being satisfied with the mere fulfilling or even going beyond programs that were made months ago. As in a fight with an individual, the quicker the knock out blow is dealt the better for all concerned. America will strike the final knock out lick. That is settled. So let's make it as quick as possible. Subscribing money is important; but getting this money spent quickly and to good advantage is the one big problem now before the nation.

Stated another way, to get our money converted into labor, and labor turned into finished ships, guns and all war equipment, this is the nation's one big task. This is why the "work or fight" order was given. Instead of the few thousand airplanes now going forward, we should have at least six thousand airplanes per year, if we are to make good our boast to "put out the eye" of the German army. If we fail to move all the wheat, not only in the new world, but also the great stores of wheat now in Australia our shipping program is in a way a failure. As the death grapple between fellowship and overlordship, between self rule and slave rule continues, we will have occasion many times not only to go beyond our programs, but to lay out bigger and vaster programs. The task of defeating Autocracy in a world where it has held sway since the days of the cave man, is such a great one that it can be made comparable to no task we can imagine. As near to a comparison as we can come would be for us to compare it to the task of damming the Mississippi river. To stop that river would take a dam from the Rockies to the Appalachian mountains, almost a super-human task. Such is the task of utterly and finally defeating and destroying autocracy of world slavery. As Cicero ended all his great orations with the words: "Carthage must be destroyed," so we should always have it in our thoughts and words and deeds—that Autocratic slavery must be destroyed! But to do this our vision of duty must grow larger and larger, and our programs and plans bigger and bigger.

**THE REVOLUTIONARY FIRES IN RUSSIA FANNED**  
One of the healthiest signs of the times, from the entire viewpoint, is the assassination of Count Von Mirbach, German ambassador to Moscow and higher-up to whom Lenin and Trotsky paid homage and from whom they no doubt received their pay checks. It is not the mere vulgar killing of the man that is of consequence, but the underlying fact that his death was due to revolutionists who refuse to submit to the galling Hun yoke. It is at last made plain that the spirit of freedom is not dead in Russia, and that with the proper encouragement there are yet elements in that great nation that may strike an effective blow in the cause of right, justice and liberty.

The incipient revolution which has dared to raise its head under the guns of German masters and despite the threats of the Bolsheviks, may have but little bearing on the final outcome of the war. It is too much to hope that the disorganized Russian patriots can mobilize an army that could cope with the trained German troops that now garrison their country. In fact, the revolution is likely to bring down upon the heads of its originators the

direct vengeance, for the assassination of a pampered Hun war lord is considered in the eyes of Berlin as a grosser crime by far than the extermination of an enemy hospital or the sinking of a hospital ship with women nurses on board. Already, it is possible that the Prussian legions are marching on Moscow to inaugurate a reign of terror.

The hopeful sign in connection with the slaying of the fatted brute who had set up his authority in the ancient Muscovite capital is that there yet lives in the hearts of the true Russian people a spark of the fire of racial emancipation. Despite German propaganda and the corrupting of men who are now in position to pose as leaders, there is no reason to believe that Russia will ever become Germanized. After the war is won and the militarists dethroned, the Slav millions can again be free under the leadership of such gallant men as those who sent an alien overlord to a timely grave.

## SUNDAY PAPERS SHOULD BE TRIMMED A BIT

Barney Baruch, head of the U. S. War Industries Board, has directed American newspapers to reduce their consumption of white print paper on July 15. This war measure is taken because of the possibility of a paper famine, as well as to prevent waste and extravagance, and is to be commended in as far as it goes. Publishers are inhibited from mailing complimentary copies, from exchanging with other newspapers, from allowing agents the privilege of returning unsold copies and from doing a number of other things of minor consequence.

Reforms that would have resulted in a great saving in white paper are overlooked, however, by the War Industries Board, or have been purposefully passed up. For instance, no limit is set to the size of Sunday newspapers, and there can be no doubt but that this is the greatest source of white paper wastage. The public does not demand, nor does it read, the voluminous 75 page Sunday editions that are printed by many of the metropolitan dailies and that reek with the doings of movie actresses, the idle rich and other persons who are very properly embraced in Gen. Crowder's "work or fight" order. The essential news of the day can be carried in a very few pages. The elimination of the Sunday super-editions would be a very commendable thing, even in times of peace.

## RAINEY MAKES A GUESS ON AFTER-WAR EXPENSES

(International News Service)  
Washington, July 9.—\$5,000,000,000 a year in revenue will be needed by the United States government at the close of the war to pay interest on bonds, to retire bonds and for the expenditures of the government. This was the prediction today of Henry T. Rainey, ranking Democrat on the House ways and means committee.

## Burk Gets Agency of Lighting System

The Burk Auto Co., has taken the agency for the Lally Lighting System of Detroit. The Lally System is a small light and power plant driven by a patented ball-bearing gasoline engine. The Burk Company has the agency for Morgan, Limestone and Madison counties.

The J. H. Calvin Company received this week a solid car of Kellogg's Toasted Corn Flakes. This is reported to be the largest shipment of cereal ever received in the Twin Cities at one time.

Kellogg's is advertised as a wheat-saving, win-the-war ration and has gained greatly in popularity since the U. S. entered the war.

## MRS. MALONE AND THE CENSOR

By "Mac"

When Mrs. Malone got a letter from Pat, She started to read it aloud in her flat, "Dear Mary" it started, "I can't tell you much I'm somewhere in France, and I'm fighting the Dutch: I'm choicin' wid news that I'd hize to relate, But it's little a soldier's permitted to state, Do ye mind Red McPhee?—well, he fell in a ditch

## TEAM EASILY FOUND BY DILIGENT WANT AD

The diligent want ad did what two good men failed in, after an all day search—it located a team of horses owned by the J. H. Calvin Co. that had strayed away. The ad cost one 25 cent piece; the time given to the fruitless search by the two men was valued at several dollars. The ad got results; the men didn't.

The horses were grazing quietly near the home of E. R. Whitten, superintendent of the water company, when the want ad fell under Mr. Whitten's eye.

## Says your body must have a Housekeeper

An eminent Specialist says: "The liver is the house keeper of health. It controls those functions which carry away the health-wrecking, disease-breeding toxins from the body. If it is allowed to fail in its work, sickness and misery are sure to follow."

Watch for the signs which indicate, quite plainly, that the liver is not working right. Coated tongue, fetid breath, headache, constipation and many other symptoms should warn you that the liver is calling for help.

There are certain well known herbs, fruits and plants that are liver aids. The most effective of these have been combined with Pepsin, and are known as "333" Liver Tonic. It is mild in action, yet cleanses quickly and thoroughly and is a splendid tonic to the liver, stomach and bowels.

Everybody suffers at times from liver sluggishness and resultant constipation. Many have found "333" Liver Tonic a helpful and satisfactory preventive. It can be bought, in big fifty-cent packages, at Dillehay Brothers or other good drug stores. Readers are advised to try a package under the manufacturer's guarantee of satisfaction or money refunded.

### ANOTHER GERMAN HAS PEACE POLICY OF OWN

Copenhagen, July 9—The time is ripe to discuss peace on the basis of disarmament through separate negotiations instead of at a round table, says George Barnhard in the Vossische Zeitung, of Berlin, according to a dispatch from that city. Barnhard's terms call for a restoration of German colonies, a trade agreement with England, recognition of the Brest-Litovsk peace treaty. Barnhard said he would agree to President Wilson's policy of self-determination, if applied to India and Ireland.

### Shuttle Train at Muscle Shoals

Muscle Shoals, Ala., July 9—Special—Beginning Monday the Southern Railroad Company started the operation of shuttle trains between Muscle Shoals and Sheffield and Tusculum, and also across the Tennessee river to Florence. The equipment for this service arrived last week, and standard, open-side cars will be used, each having a seating capacity of 100 people. Each train will consist of fifteen cars, which will arrive and depart from Muscle Shoals early every morning and late every afternoon.

The new service will be under the direction of District Passenger Agent A. M. Crawford of the Southern system. Although Muscle Shoals is connected with Sheffield, Tusculum and Florence by a splendid interurban line, and hard surfaced pike roads, these facilities have not been altogether adequate in handling the heavy traffic between Muscle Shoals and the nearby tri-cities, and the new shuttle train service will go a long way towards solving the transportation problem in the Muscle Shoals district.

## Meat Must Be Sold

Fresh meat is perishable. It must be sold within about two weeks for whatever it will bring.

A certain amount of beef is frozen for foreign shipment, but domestic markets demand fresh, chilled, unfrozen beef.

Swift & Company cannot increase prices by withholding meat, because it will not keep fresh and salable for more than a few days after it reaches the market.

Swift & Company cannot tell at the time of purchasing cattle, what price fresh meat will bring when put on sale. If between purchase and sale, market conditions change, the price of meat must also change.

The Food Administration limits our profit to 9 per cent on capital invested in the meat departments. This is about 2 cents per dollar of sales. No profit is guaranteed, and the risk of loss is not eliminated.

As a matter of fact, meat is often sold at a loss because of the need of selling it before it spoils.

## "KITCHEN POLICE" IMPRESSED SHAFER

YOUNG SOLDIER WRITES OF HIS EXPERIENCE AT TRAINING CAMP.

"Kitchen Police" made a distinct impression on private Lee Shafer on his arrival at training camp, as he states in the following letter to his sister:

Camp Sevier, Greenville S. C.

July 4th, 1918.

Dear Sister:—I just now received a letter from you and was glad to hear from you. I will write you some of my first army experience. There were one hundred and thirty-three came to camp together and there was a great cheering crowd that escorted us to the train. The trip was not unpleasant at all. The cantonment is a revelation. As far as you can see there are long buildings. They are well constructed and there are good shower baths. We live in barracks that are like dormitories. Everything possible seems to have been done for

our comfort. There was so much excitement we did not seem to mind the waiting though as I look back at it I realize we must have spent two hours in the hot sun waiting to be classified and assorted. Those who came from home were directed to an enclosure bearing a sign telling them to assemble there. Young officers were seated at tables filling out what they called our service records. Then we made out blanks assigning our pay claims in case we were killed in action. This was not a very cheerful performance. But it was all so novel we scarcely realized what we were doing, and when it was all over we were very hungry. We were given mess pans and cups and told to get our "chow." Some of the men ate theirs with great relish. I could not "co" mine. But the next morning now I was hungry, and everything tasted good. It was a new experience to me to have to wash dishes. Somehow I always despised the "man dishwasher." But here it is different, if your dishes are not washed

### GROCER UP AGAINST IT

"I have been up against it for past 3 years suffering from pain in my stomach and side until I was considering giving up my grocery business. Doctors and medicine did not help me. I heard of Mayr's Wonderful Remedy through a friend in Buffalo. The first dose gave me more benefit than all the medicine I had taken before and am now feeling as well as ever in my life." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

clean you will be punished. There is a kind of punishment that is known as kitchen police, and it means cleaning up the whole kitchen, if you don't clean your own dishes. None of that for me. The next morning we drew our uniforms. I have everything from socks to hat, even my underwear is

provided by the government. It is odd underwear. It is made of cotton material with webbing down the sides. It looks cheap and feels cheap, but I'll bet it will wear like iron. What is there about a uniform that makes one stand "straighter?" I am sure that I'm more erect, and I must admit it.

In the evening when we had a ceremony called "retreat" and lowered the flag I had a "creepy" sort of feeling as the "Star Spangled Banner" was played. I am not quite reconciled to serving in the army, am resigned to it. But things must be taken on a new significance from now on. I am in the

army and the flag is more than my flag.

Well it is almost time for "retreat." Will write you again soon. With love to you all, from your Brother,

Lee
